PATRICK PETERSON
NFL All-Pro Cornerback

Introducing the R A P T O R™

The R A P T O R, is a state-of-the-art system that enhances and accelerates therapeutic recovery in sports medicine, post operative recovery and general physical rehabilitation. Its rapid mechanical percussions penetrate several layers of muscle with up to 3600 percussions per minute!

TECHNOLOGY/BENEFITS

- Myofascial release mechanism administers deep tissue percussive penetration that achieves better results with minimal to no discomfort.
- Compact and Powerful, with adjustable speeds and interchangeable applicators that are suitable for hundreds of protocols.
- Although The R A P T O R does not replace the benefits of direct human touch and deep tissue massage, it greatly improves the effectiveness of treatment. The R A P T O R allows a good practitioner to administer a much more effective treatment in a shorter period of time.
